Abstract:

I work at special school as a teaching assistant and tutor. The mission of my work is to assist the teacher in teaching and as much as possible to fulfill the principle of individual approach to pupils. Furthermore, as a professor of free time I try to offer the best after-school and leisure activities and leisure time to fill the child so that happy. In my work I examine the extracurricular activities of interest in children in an orphanage, opinions and attitudes on the subject , not only children but also the public.
